PRODUCT DATA SHEET

HEDP.NA4

Synonyms	Tetra sodium of 1-Hydroxy Ethylidene-1,1-diphosphonic acid
CAS Number	3794-83-0
Einecs Number	
UN No.	
Molecular Formula	$C_2H_4O_7P_2Na_4$
Molecular weight	294
Structural Formula	

Product Grade	Industrial
Description & Application	HEDP Na ₄ , widely used in electric power, chemical industry, metallurgy, fertilizer and other industrial circulating cooling water and low pressure boiler, oil field water injection and oil pipeline of anti-scaling gentle erosion; HEDP, Na ₄ in the textile industry, cleaning agent for metal and nonmetal peroxide stabilizer and fixing agent, printing and dyeing industry, without cyanide electroplating complexing agent, daily-use chemical additives.
Safety Protection Specification	Active content as salt, %;80-88.5 Active content as acid, %;56-62 Loss on drying, %≤10 pH (1% solution) : 11-12 Iron, as Fe ,ppm ≤35 Appearance: White powder solid
Package	25kg/bag.,Stored in cool and dry place.
Shelf Life	1 year.
